PRIDE Investigators Meeting

Breakout Sessions
Tuesday, October 16, 2007
1:00 pm - 3:15 pm

- **Theme Area 1 - Risk Management/Hazard Resilience**
  Discussion Leader: Chris Chiesa, PDC
  Rappatour: Pam Cowher, PDC
  Location: Kaniela Room

- **Theme Area 2 - Climate/Weather and Coastal Communities**
  Discussion Leader: John Marra, NOAA/IDEA Center
  Rappatour: Uday Kari, NOAA/IDEA Center
  Location: Asia Room

- **Theme Area 3 - Marine and Coastal Ecosystems**
  Discussion Leader: Nori Shoji, NOAA/PIFSC
  Rappatour: Lynn Nakagawa, NOAA/IDEA Center
  Location: Sarimanok Room

Problem Statement
How to address challenges and identify opportunities in data access, integration and visualization areas for activities being conducted in and for the Pacific region to both enhance and foster effective Pacific regional work and apply lessons learned in the Pacific to the broader NOAA environmental science and information services responsibilities.

Intent
Participants are to identify and explore lessons learned, challenges and future opportunities.

Goals
To meet the requirements of users and the scalability challenges data volumes present through the identification of key challenges which need to be addressed in regards to data access, integration and visualization.

To explore opportunities related to both supporting environmental science programs as well as enhancing the ability of non-technical users to discover, access and use NOAA environmental data and information services in the Pacific.

Output
Each theme area group is to produce three ppt slides with bullet points of key information related to the following:
- Successful implementations
- Lessons learned and challenges for the future
- Identification of opportunities for focused collaboration

This information will be used to set the stage for expanded discussions during the breakout sessions at the following Pacific Region Data Integration and Visualization Workshop.

Report Outs from the Breakout Groups
Tuesday, October 16, 2007
3:30 pm - 4:15 pm
